

1L LCLD Scholars Program

Fact Sheet

Purpose

The 1L LCLD Scholars Program is designed to strengthen the legal pipeline by expanding the number of opportunities for diverse first-year law students. The program offers these students the rare opportunity to spend a summer working side-by-side with attorneys from LCLD Member organizations.

How LCLD Member Organizations Can Participate

Every LCLD Member organization is invited to select one or more 1L LCLD Scholars to participate in a summer internship at their organization and to attend a summit designed exclusively for 1L LCLD Scholars.

Summer Internship Criteria

LCLD does not have specific requirements regarding 1L LCLD Scholar(s) work assignments/projects, compensation, or internship duration. We recommend that assignments provide a good balance of quality and quantity and contain substance and variety throughout the internship. In fact, LCLD recommends that employers integrate their 1L LCLD Scholar(s) into their existing summer internship program. Their summer experience should be similar, if not identical, to that of your other interns, including opportunities in the social, educational, and professional arenas.

Our expectation is that firms/corporations will pay their 1L LCLD Scholar(s) the same rate as their other first-year summer interns or, if inapplicable, a reasonable amount should be paid. Typically, 1L LCLD Scholars work at participating employers for at least eight weeks.

If your organization does not have an existing summer program, LCLD encourages you to collaborate with other LCLD Member participants in the 1L LCLD Scholars Program. Often, corporate and law firm Member organizations can join forces to create an even more dynamic program that maximizes the Scholar's experience and minimizes logistics management for Members.
