

Legal Counsel, GE Digital

Role Summary/Purpose:

The role of Legal Counsel for GE Digital will help provide strategic legal support for the execution of this critical GE initiative in an effective and compliant manner. In this role you will provide support for the commercial operations of GE Digital with respect to legal matters related to all aspects of the operation of GE Digital. You also will collaborate with other attorneys globally across GE and key third party partners on shared initiatives.

Essential Responsibilities:

The ideal candidate will manage a large range of complex issues associated with software commercialization and sales of software as a service as well as complex software licensing. He or she will also collaborate closely with attorneys in the GE Businesses relating to the sales of software application services running on GE's Predix software platform. Key Responsibilities include:

- * Working with GE business and legal leadership to address effective critical legal strategies to enable fulfillment of our mission on a global basis.
- * Managing legal issues relating to the commercial operation of GE Digital
- * Serve as a key legal partner as part of GE Digital's relationship with GE Businesses and GE customers and vendors
- * Working with members of the IP legal team to protect GE's intellectual property while helping to grow an ecosystem of partners in the software technology area
- * Drafting and negotiating various alliance, cooperation, development and sales and licensing agreements and contract transactions in the software technology and business development areas
- * Maintaining and managing an environment to ensure compliance with company policies around the globe.

Qualifications/Requirements:

- * A law degree from an accredited US Law School
- * Admission to at least one state bar or the D.C. bar
- * Minimum of 8 years of experience of practice in the legal fields relating to development, use, commercialization and sale of software and technology solutions

Desired Characteristics:

- * Experience in effectively participating in cross-functional business and legal

teams in addressing and resolving commercial software and legal issues, particularly in the software as a service area

- * Experience in handling sophisticated commercial transactions and developing strategic and innovative plans for collaboration with key business partners
- * Ability to work independently and produce a high quality product
- * History of participation in professional associations and bar activities
- * Strong teamwork skills
- * Excellent oral and written communication skills

About GE Digital

GE is the world's Digital Industrial Company, transforming industry with software-defined machines and solutions that are connected, responsive and predictive. Through our people, leadership development, services, technology and scale, GE delivers better outcomes for global customers by speaking the language of industry. At GE Digital, we are creating technology and solutions to enable social, mobile, analytical and cloud capabilities for the Industrial Internet. The Industrial Internet is an open, global network that connects people, data and machines. It's about making infrastructure more intelligent and advancing the industries critical to the world we live in. At GE, we believe it's about the future of industry-energy, healthcare, transportation, manufacturing. It's about making the world work better. GE offers a great work environment, professional development, challenging careers, and competitive compensation. GE is an Equal Opportunity Employer. Employment decisions are made without regard to race, color, religion, national or ethnic origin, sex, sexual orientation, gender identity or expression, age, disability, protected veteran status or other characteristics protected by law.
