

Sun Pharmaceuticals Industries Inc. is the fifth largest generic pharmaceutical company in the world, and rapidly building brand presence. We manufacture, market and distribute pharmaceuticals to the nation's largest wholesalers, distributors, warehousing and non-warehousing chain drugstores as well as managed care providers. Our goal is to continue to develop and market quality products that bring value to our customers and ultimately the patient. Current manufacturing capabilities allow Sun Pharma to develop products across most therapeutic categories.

At Sun Pharma we believe our people are an invaluable asset. Our culturally diverse workforce is one of our biggest strengths, along with the rich experience they bring across varied skill-sets. We are proud that our global workforce is bound by our common values:

Humility. Integrity. Passion. Innovation.

Description:

The U.S. Patent agent will be an integral part of the Princeton IP team working to provide the necessary IP support for Sun/Taro to accomplish their business goals. The position will interface with U.S., India, and Israel based IP teams and business units to ensure Sun/Taro patent position is strong and to expand Sun/Taro IP portfolios for future growth and exploitation of revenue generating opportunities.

Responsibilities:

- Patent Prosecution Drafting and editing patent office submissions to ensure compliance with U.S. patent law.
- Communicating with Patent Examiners and conducting interviews to facilitate patent prosecution
- Managing global patent agents and outside attorneys in patent prosecution related activities
- Assist with Patent Strategy and Portfolio Management for product life cycle management
- Assist with patent licensing and acquisition related issues and IP support for asset purchases and M&A
- Directly communicate with the Brand groups and collaborate in person to develop patent strategies for product life cycle management

Requirements:

- Advanced degree in chemistry, physics, chemical engineering or closely related field
- Registered United States Patent Agent
- 3-5 years of patent prosecution experience
- Minimum 2 years of patent prosecution experience in Pharma or Life Sciences
- Small molecule and biotech patent prosecution is strongly preferred
