WHO WE ARE

The Johnson Controls Global Legal Department provides high-quality legal advice, transactional advice and support, regulatory advice, litigation oversight, and advice on compliance and reputational issues. Our goal is to help our businesses complete their transactions and understand and weigh the risks associated with our activities. In many cases, our lawyers—along with other professionals, assist the businesses in innovating and capitalizing on opportunities while optimizing risk.

The Johnson Controls Global Legal Department delivers legal services through dedicated business lawyers embedded in each Business Unit, as well as Centers of Excellence (COEs)—working to bring best practices and provide advice on specific topics across businesses, including litigation, labor & employment, and intellectual property. The business lawyers generally report into a General Counsel for that Business Unit, while COE lawyers are led by other Global General Counsels.

POSITION SUMMARY

Johnson Controls, the global leader in building products and technology, integrated solutions, and energy storage, is seeking two (2) experienced and enthusiastic 1L LCLD Scholars for Legal Interns to work with its in-house legal team for 8 weeks during Summer 2019. The interns will have exposure to various aspects of a global corporate legal environment, including contract review and negotiation, litigation, labor and employment, intellectual property and licensing, compliance, and law department management. We are a highly collaborative team, so the interns will have the opportunity to work on a variety of projects. This is a paid position.

LOCATIONS

Two (2) Johnson Controls locations will be chosen after candidates are selected. Please indicate interest in one of the following locations in your cover letter.

- Boca Raton, Florida
- Milwaukee, Wisconsin
  *The Milwaukee intern will split time between two Milwaukee locations (Downtown and Glendale).

RESPONSIBITLITIES

As a member of the Johnson Controls Global Legal Department, you will work closely with business professionals across the enterprise, as well as with outside counsel. Your responsibilities may include:

- Transactional advice
- Regulatory advice
- General legal advisory services
- Litigation services
- Document review

- Negotiation
- Subject matter expertise
- Advice on compliance and reputational issues

REQUIRED EXPERIENCE

Candidates must be full-time law students that will complete their first year of law school immediately before the internship. The internship is for Summer 2019.

QUALIFICATIONS

- Strong analytical and organizational skills
- Excellent interpersonal and communication skills; the ability to clearly articulate ideas
- Highly-motivated and adaptable; the ability to work on a team of diverse individuals
- Proactive; the ability to respond creatively and quickly in a fast-paced, high-pressure, changing environment
- Accurate and detail-oriented with sound judgment and integrity
- Interest in intelligent buildings, efficient energy solutions, industry-leading fire and security systems, integrated infrastructure, and next-generation transportation systems that work seamlessly together to deliver smart and safe cities and communities
