

# Chief Intellectual Property Counsel, Software and IloT

INNOVATE TO SOLVE THE WORLD'S MOST IMPORTANT CHALLENGES

Led and execute the intellectual property (IP) strategy for Honeywell Connected Enterprises (HCE), our software and Industrial Internet of Things (IIoT) business. HCE is harnessing the power of software, cloud, mobile, data & analytics and IIoT and our extensive domain experience across Aerospace, Buildings, Plant, Worker and Cyber Security to incubate, deploy and scale breakthrough software offerings that impact a wide range of industries, improve quality of life, and truly change the world.

Led our freedom to practice program

Protect our technology and business model differentiation including managing our IP portfolio and patent prosecution

Respond to, manage and resolve IP defensive matters

Manage review, negotiation and drafting of IP terms

Drive technology licensing and patent enforcement

Manage Open Source Software use and contribution

Enable our Software as a Service (SaaS) transformation driving organizational change to grow our businesses exponentially
