

Hanson Bridgett 1L LCLD Scholar

Hanson Bridgett actively recruits talented and driven law students with diverse backgrounds who have a sense of humor. We seek candidates with a record of strong academic performance, strong research, writing and analytical skills as well as excellent and highly adaptable communication skills. We also seek intelligent, entrepreneurial, team players who are practical, problem solvers, ambitious, organized and detail oriented and are looking towards partnership with Hanson Bridgett. Our firm's main recruiting source for entry level attorneys is our summer associate program.

This year we will conduct our 2L summer associate interviews in alignment with the law school winter recruiting season to fill up to 4 summer associate positions in San Francisco. We also hire a 1L LCLD Scholar each spring. We purposefully keep our summer program small to maintain the cooperative and supportive environment consistent with our firm's culture. A relatively small summer program also enables our summer associates to work in many of the major practice areas of our firm and to get to know the people who make up Hanson Bridgett.

While every summer associate experience is different, we strive to give summer associates a realistic experience of what it is like to practice law at Hanson Bridgett. Summer associates do work that, if they were not with us, would be done by Hanson Bridgett associates. The assignments are real, meaningful, and important. Summer associates also have opportunities to observe or participate in client meetings, court appearances, and other "hands on" experiences. Summer associates, like associates, juggle multiple assignments and responsibilities. We know that the practice of law is demanding, but we strive for a healthy balance between work and personal time. We want our summer associates to experience the joys and pressures of working at Hanson Bridgett so that they can assess whether their professional and personal goals and objectives can be satisfied at our firm. Of course, we anticipate and hope that our summer associates will laugh and have fun with us throughout their summer and beyond.
