

Wolf Greenfield is currently accepting applications for our 2022 Summer Associate Program. We are seeking 1L students for our Boston and New York offices who interested in practicing intellectual property law. Technical backgrounds are strongly preferred but not required. Our summer program is designed to give you a realistic sense of what it's like to practice intellectual property law at Wolf Greenfield. You'll have the chance to experience a wide variety of challenging client work. Along the way, you will also receive in-depth training and join in many firm events.

Although your work will come mainly from your primary practice group, you will also gain exposure to the other practice groups within the firm. For example, there may be an opportunity for you to work on both patent prosecution and IP litigation matters. Summer associates have worked on projects dealing with issues as varied as cybersquatting, hair bleach, snowboard bindings, sneakers, and suppression of free speech by the government.

For additional information, and to apply, please visit:
