10:00 AM - 12:00 PM  Breakout Session 1:

Biscayne Ballroom  **Section A: Resilience - The Key to Moving from Surviving to Thriving**  
*John Mitchell, “The Purple Coach” and Owner, KM Advisors, LLC*

Have you noticed that there are some people who repeatedly bounce back from seeming disasters and continue to shine? In the last couple of decades, there has been a surge in research into the psychology of resilience and achievement. This session will help Fellows learn how to manage their thinking, beliefs, and behaviors to increase their personal level of resilience and constantly move toward a state of thriving.

Chopin Ballroom  **Section B: Owning Your Value - Busting Imposter Syndrome and Cultivating Evidence-Based Confidence**  
*Neha Sampat, Founder & CEO, GenLead | BelongLab*

Seventy percent of the general population struggles with Imposter Syndrome, the feeling that one is not cut out for the work one is doing or aspires to do, combined with a fear of being discovered as a fraud. Ironically, high achievers and those in certain fields (such as the law) are at unique risk of this often-hidden epidemic and suffer a greater sense of isolation and anxiety because of it. This workshop will equip you with actionable tactics to recognize and address Imposter Syndrome within yourselves and each other, leading to greater leadership presence and increased professional fulfillment and engagement, as well as improved wellness. Organizationallly, this contributes to increased retention, peak-performance teams, and more meaningful inclusion. Through the workshop exercises, you will use your lawyering skills to develop a more objective and balanced assessment of your strengths, traits, and experiences, explore how you are uniquely qualified for leadership, and move towards greater comfort and ease in owning your value.

Communicating Through the Generations  
*Chris De Santis, Specialist in Management & Organization Development*

People are living longer, working longer, and changing jobs more frequently than any other time in our history. The workplace and the workforce is no longer what it was when our father’s father left the house each morning, worked hard each day, did what the company asked, and retired when it was time to do so. This nostalgic view of work was probably more romance than reality but the image left a mark on the generation that followed. Things were fine until our father was downsized and mom got a job. This less than romantic view also left a mark on the children that followed. Events shape perceptions, perceptions become beliefs, and beliefs become the basis for our values. Welcome to the new world of work.
