

Learning Experiences

Fact Sheet

Purpose

LCLD Fellows Learning Experiences are day-long, interactive events hosted by LCLD Member corporations that offer professional development and relationship building opportunities in small group settings. The emphasis during a Fellows Learning Experience is on personal interactions with key business and functional leaders in large U.S. corporations. Learning Experiences add value to both the Fellows' professional development and the Fellows' sponsoring organizations by providing each Fellow with a comprehensive understanding of the drivers of competitive advantage in today's global corporations, thereby allowing the Fellow to deliver value in ways that intensify and make more transparent the relationship between their legal contributions and the commercial and operational outcomes coveted by business leaders.

Attendees

The LCLD Fellows Learning Experience is limited to currently enrolled LCLD Fellows. In order to maximize the opportunities for networking and interaction with top corporate executives during the Experience, we strictly limit capacity at each event.

Locations

Learning Experiences are held across the country at various LCLD Member corporations.

Frequency

To maintain a quality experience with a limited number of participants and to ensure that there are a number of opportunities to participate, LCLD's goal is to offer no fewer than six Learning Experiences throughout the year. LCLD staff will gladly work with you to schedule a date that matches the availability of your corporation.

Time Commitment

Each itinerary is planned in advance by the Member corporation, with LCLD staff available for consultation as needed. LCLD staff can assist with hotel and local transportation arrangements and will be responsible for registration and name tags for the event. An LCLD staff member will attend each Learning Experience.

"We'd like to thank LCLD for the invaluable opportunity to host such a talented group of professionals at our leadership development and networking event. At Honeywell, we firmly believe in the power of diversity in the workplace and are invigorated by the enthusiasm and passion for law displayed by the Fellows in attendance. It is refreshing to spend time enriching our broader community and interacting with motivated individuals on their path to success." —Kate Adams, Senior Vice President and General Counsel, Honeywell International
